# BREAKING BARRIERS

WWW.YOUTHEFEW.COM

Music has always been about the power of story and the truth that unites us all. Knit together, storytellers write history and become culture-makers. Memphis metalcore band, You The Few writes stories of human experience and honest expression, animated by the space between reality and imagination.

With roots in rock, hardcore, emo, punk and metal, the band's eclectic sound creates a diverse experience that transcends the rules of genre. Drawing influence from metalcore giants like Underøath and Silent Planet, the band crafts their sound with a balance of aggressive vocals, intricate rhythm, and harsh guitars, tastefully paired with catchy hooks and an ambient sonic foundation.

Comprised of Naø Lewandowski, Shekinah Toebbe, Joel Hoyt, Daniel Lewandowski and Nick Toebbe, YTF breaks every stereotype in heavy music.

The band is a mosaic of men and women who share the stage as one, discovering stories and writing new chapters with every album and every show.

YTF released their first self-titled EP in 2013, followed by Taken at the Flood in 2015. In 2016, the band released their second studio album, It Is Well via Madison Line Records. An album of tension between hope and loss, It Is Well became the springboard for the band's philosophy on music, creativity and relationships.

With every song, YTF aims to write authentic stories and ask questions that may not have answers. The space between comfort and mystery has become the band's foundation for writing and learning, and ultimately where life is cultivated, stories have meaning, and music has purpose.
